Summer Training:

The summer training program is designed for students from different academic fields. It aims to provide students with hands-on experience in their areas of study, enhancing their skills and knowledge.

Students are encouraged to participate actively in the program, which typically lasts no less than 200 hours. The training involves collaboration with various government sectors and specialized fields to offer valuable insights into the real-world applications of their studies.

The initiative seeks to equip students with practical skill sets that are essential for their future careers, promoting a deeper understanding of their chosen fields.

The objective of summer training

The passage outlines skills and qualities important for students involved in training programs.

Here's a summary of the key points:

1. **Effective Communication:** Students should develop communication skills with colleagues and stakeholders.
2. **Adaptability:** Being adaptable and able to adjust to various work environments is essential.
3. **Time Management:** Students need to manage their time effectively to meet deadlines.
4. **Understanding Industry Practices:** Familiarity with industry standards and practices is crucial.
5. **Collaboration:** Ability to work well in teams and collaborate with others is important.
6. **Problem-Solving Skills:** Students should enhance their ability to identify and solve problems.
7. **Technical Skills:** Gaining technical skills relevant to their field is necessary.
8. **Professional Reporting:** Learning to prepare and present professional reports is vital.
9. **Networking:** Building relationships with professionals in the industry is beneficial for future opportunities.

These points highlight the competencies and traits that can help students succeed in their summer training experiences.

Summer Training Course Detail

Course name: Summer Training

Course Code:

Department	Code
Computer Science and Artificial Intelligence	CCCS 333 /CCAI 333
Cyber Security	CCCY 333
Computer and Network Engineering	CCCN 333
Information Systems and Technology	CCIS 431
Software Engineering	CCSW 333

Training Advisor: responsible for monitoring and evaluating the trainees with the training organizations. They are also responsible for field visits and communication with the training organizations if required.

Requirements to register this course:

1. The student must complete 120 credit hours or more.
2. The student must not be suspended from university studies.
3. The student is not allowed to register for academic courses during the summer training period.
4. The student must obtain an approval letter for the training from the relevant organization or company, and the department must approve the training plan.

Note: The actual training should not be less than 200 training hours (at least 8 weeks) and should not extend beyond the end of the academic semester in which the training takes place.

Summer Training Forms:

List	Form name	Submission Time	Submission Method	Grade
1	Registration	During the registration week	To be submitted by the student's advisor	5
2	Training Plan	Before training commence	To be emailed to the training unit	5
3	Starting Date	First week of the semester	To be sent to the training advisor	3
4	Progress Report	After finishing 100 training hours	To be sent to the training advisor	12
5	Final Report	After finishing 200 training hours	To be sent to the training advisor	35
6	Final Evaluation	During the 7 th week	To be sent directly from the training organization to the training advisor	35
7	Student's Evaluation for The Training Organization	During the 8 th week	To be sent to the training advisor	0
8	Presentation	During the 8 th week or the last week	To be arranged between the students and the training advisor	15

Note: The coordinator and the academic department will verify the required documents and the training plan before registering the training courses.

Cases to dismiss the training course:

1. When students are absent for 5 days without an excuse.
2. When students do not follow the training plan.
3. When students do not submit the required original documentation.
4. When students do not follow the training organization's rules and procedures.
5. When students register other classes that are not approved.

The mechanism of summer training.

Stage1: Registration for the summer training course.

1. When the student obtains approval from the training organization, they must fill out the training file and save it as a PDF, then send it to the department coordinator.
2. The student must send the training plan form to the training organization to complete the required information in the form.
3. The training organization completes the required information in the training plan and sends it back to the student. The student saves it as a PDF and then sends it to the department coordinator.
4. The plan is approved by the coordinator, and the student's information is sent to the academic affairs department to register the practical training course.

Stage2: During the Training. All students must follow:

1. Students are required to begin their training within the specified timeframe.
2. Students are required to attend training from the beginning to the end of the working day.
3. Absence is not permitted without a valid reason.
4. Students should submit their progress report after finishing the first 100 training hours.

Stage3: After finishing the Training.

Students are expected to submit final reports, presentations, and final evaluation.

All guides are provided by the training advisors.

Note: Students are evaluated at the end of the training course based on the final report, presentation, evaluation, mid-term progress report, and final assessment. The student will receive either a pass or fail grade.

Evaluation Method:

Training plan	3
Mid-time progress report	12
Final evaluation	35
Final report	35
Presentation	15

Progress Report No. ()

حتى يتم تقييم إنجازات الطالب /ة في هذه الفترة يجب أن يحتوي هذا التقرير على النقاط التالية:

1. كتابة التقرير باللغة الإنجليزية.
2. عدد الساعات المنجزة.
3. وصف للمهام وما تم عمله لإنجازها.
4. الصعوبات التي واجهت الطالب /ة خلال الفترة (إن وجدت)
5. يتم الإبلاغ عن أي تغيير في الخطة المقدمة في هذا التقرير.

* ملاحظة: يستحق الطالب /ة عند تقديم هذا التقرير 4% من الدرجة النهائية

The student will be evaluate on this report based on followings:

1. The progress report should be written clearly in English
2. The achieved training hours.
3. Description of the tasks and duties performed during this period.
4. The challenges that the students faced during this period (if applicable).
5. Any changes in the training plan should be reported here.

* Note: This report weights 4% from the final evaluation.
